

Fenestration Installer Apprenticeship

LEVEL 2

This apprenticeship is for those who work as installers of glass supporting systems, which include window and door units. They will work on both new builds and refurbishments within the construction sector. Projects include dwellings and non-dwellings, ranging from windows, doors, bi-fold doors in homes and public houses through to large new build and housing developments.

A Fenestration Installer will be responsible for completing their own work, with minimal supervision, ensuring they meet installation quality standards and deadlines. They may work as part of a team, with responsibility for a specific aspect of the installation, contributing to the completion of the project.

Typical job roles include:

- Installer of Glass Supporting Systems
- Installer of Replacement Windows and Doors
- Window and Door Installer
- Conservatory Installer

What's involved with this apprenticeship standard?

This apprenticeship standard covers the range of knowledge, skills and behaviours needed to be a Fenestration Installer.

The apprenticeship standard covers a range of topics, including:

- Health and safety
- Environmental factors
- Relating to the industry
- Building regulation
- Quality assurance
- The removal and installation of products including, windows, doors, Bi-fold doors, conservatories and curtain wall systems

Duration: 2 years

Apprentices without level 1 English and maths will need to achieve this level and apprentices without level 2 English and maths will need to take the tests for this level prior to taking the end-point assessment. For those with an education, health and care plan or a legacy statement, the apprenticeship's English and maths minimum requirement is Entry Level 3.

Apprentices must spend 20% of their contracted hours completing off-the-job training which works out around 1 day per working week.
